

# Multi-Agent Programming Contest 2020

## MLFC Registration

Rafael C. Cardoso<sup>1</sup>, Angelo Ferrando<sup>1</sup>, Fabio Papacchini<sup>2</sup>, Sven Linker<sup>1</sup>, Matt Luckcuck<sup>1</sup>, and Terry Payne<sup>2</sup>

<sup>1</sup>The University of Manchester

<sup>2</sup>The University of Liverpool

## General

### Introduction

1. What is the name of your team?

MLFC.

2. Which (agent) platform/programming language(s)/frameworks are you using and why?

We use the JaCaMo<sup>1</sup> framework due to our members prior experience with it and the good results that were obtained with it in past editions of the Multi-Agent Programming Contest.

3. Any tips you want to give the other participants? :)

Check the strategies used by teams in 2019. They are described in the pre-print papers that are available on arXiv (titles are on the MAPC 2019 website<sup>2</sup>).
